On crossbar with swing down arms

1 Place swing down arm (SDA) unto cross bar

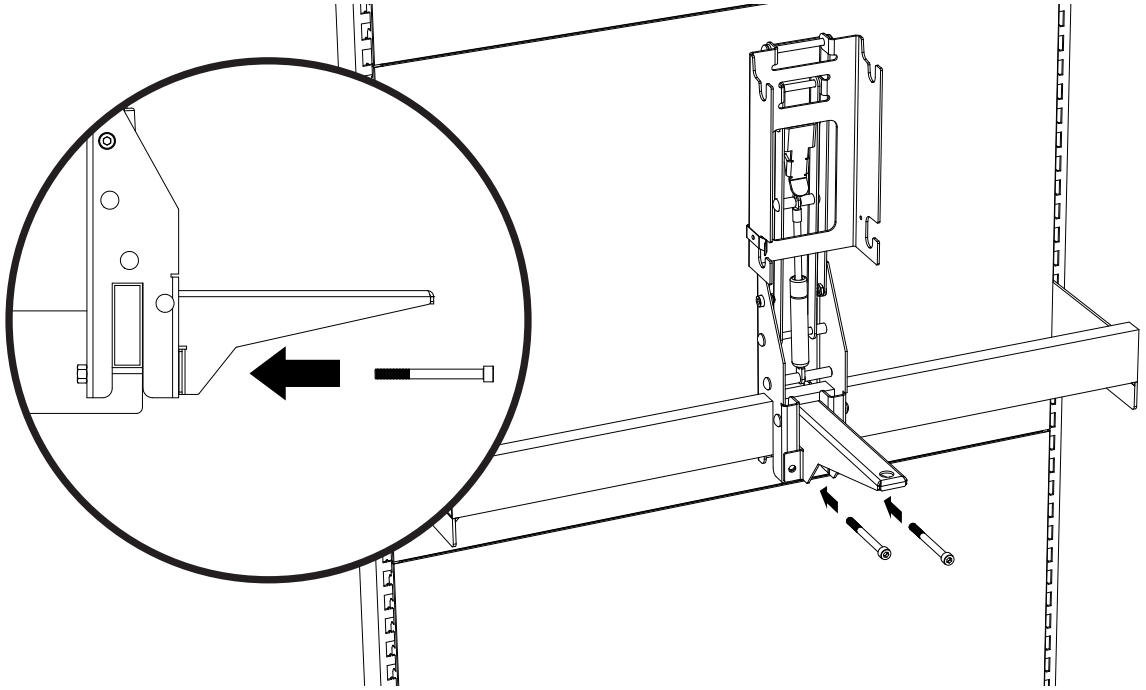

---

2 SDA drops down and sits over the cross bar

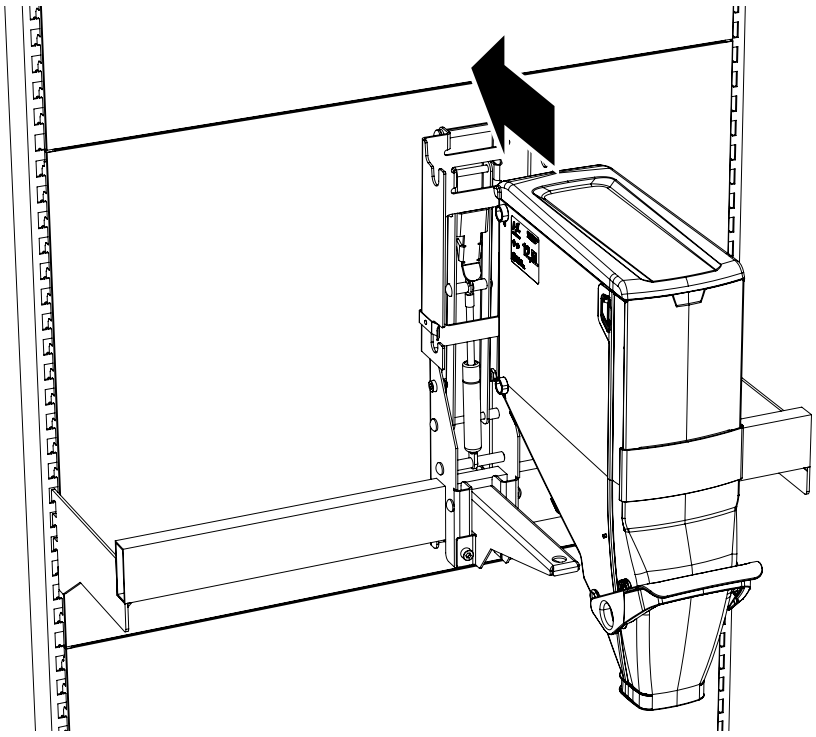

3

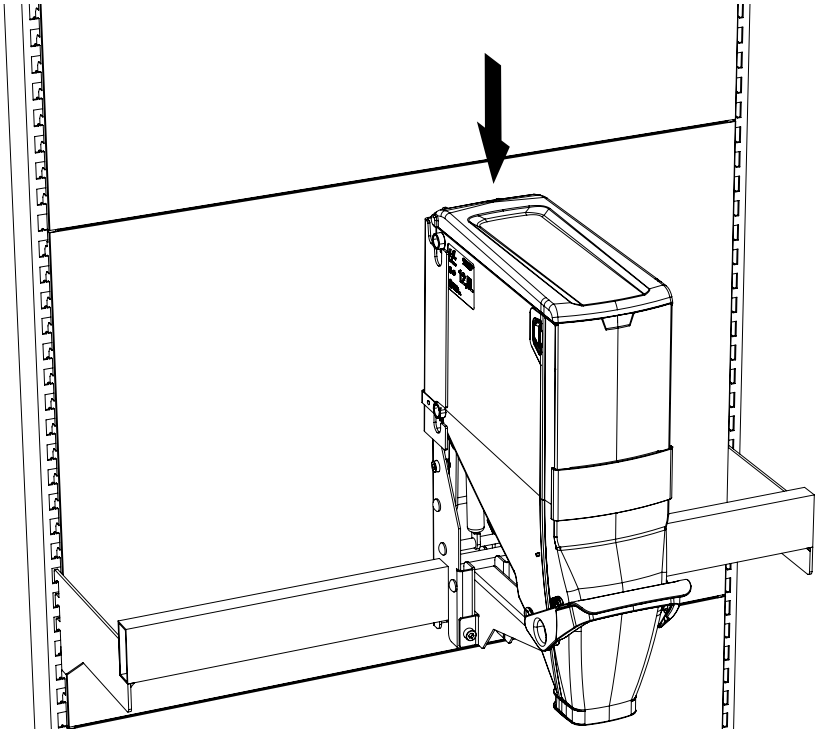

Fix the 2 bolts to secure SDA onto cross bar

4

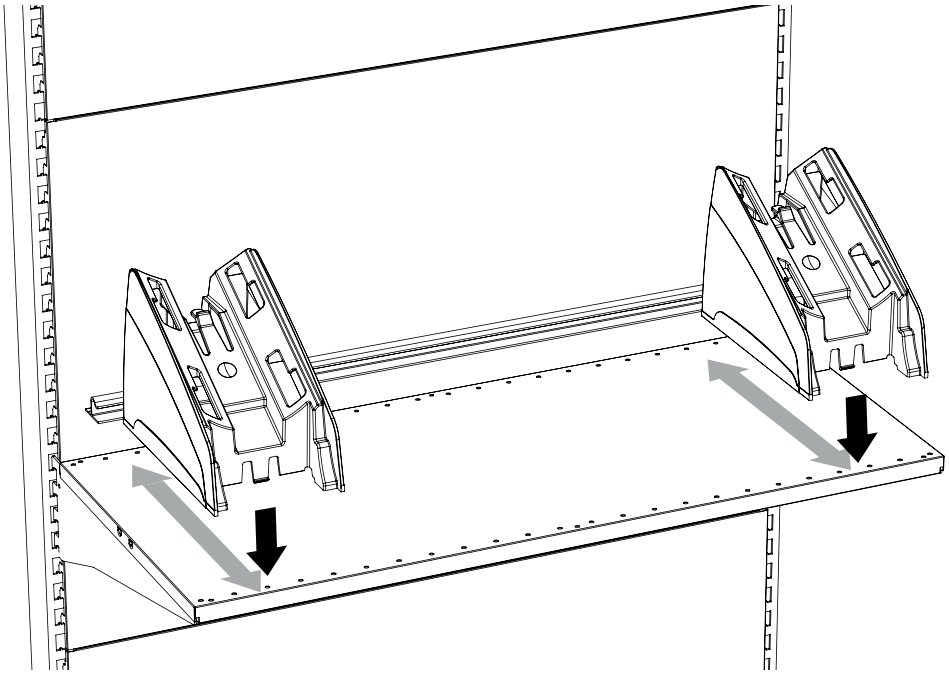

5

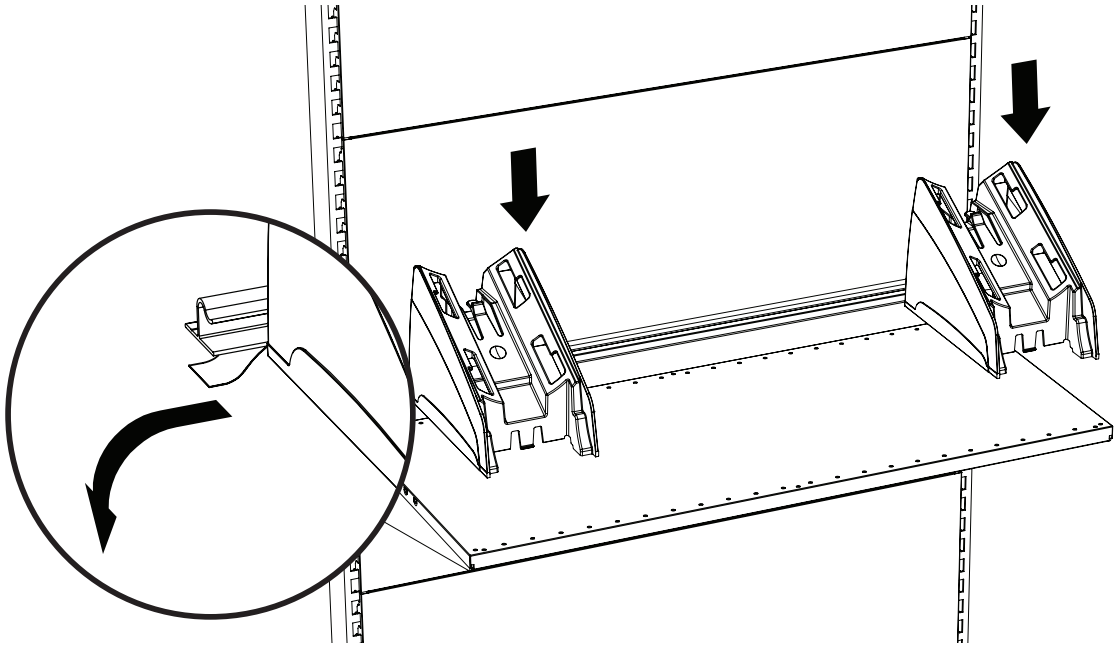

On a shelf with a mounting fot

1 Insert two (2) Bin Foots into the profile, and align the front of the foot with the front of the shelf.

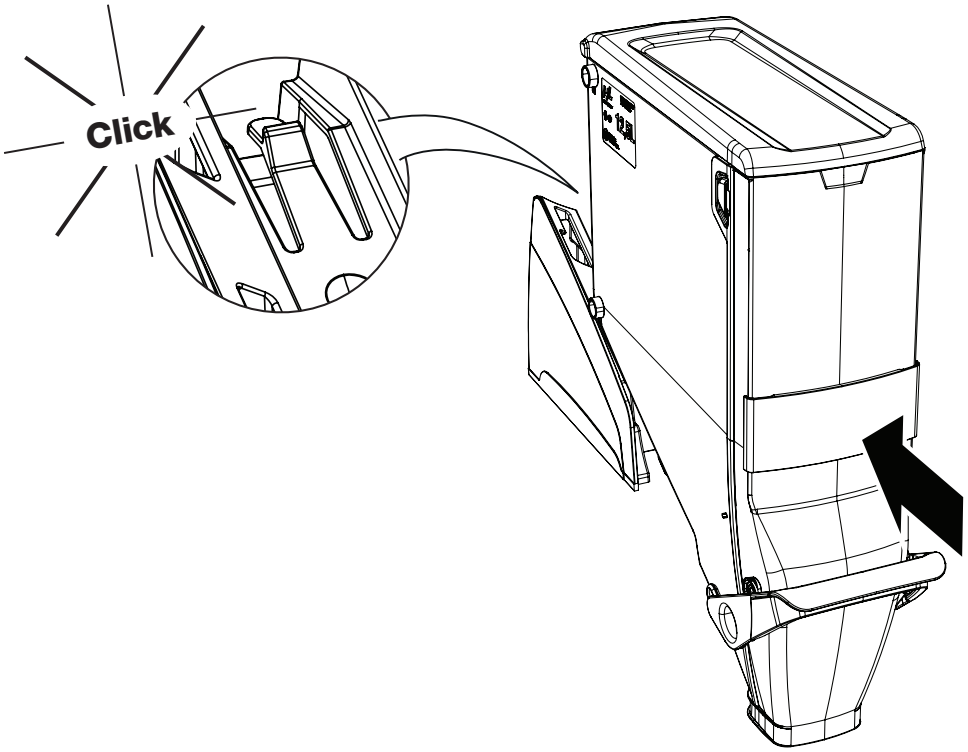

---

2 Once the correct depth has been determined, remove the tape and fix the profile to the shelf

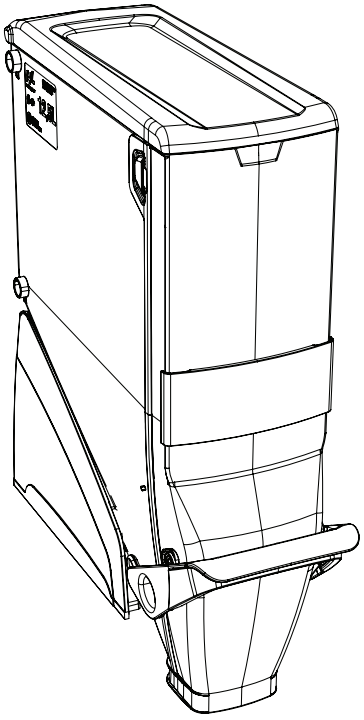

3 Insert the Gravity Bin in into the Bin Foot before attaching it to the profile

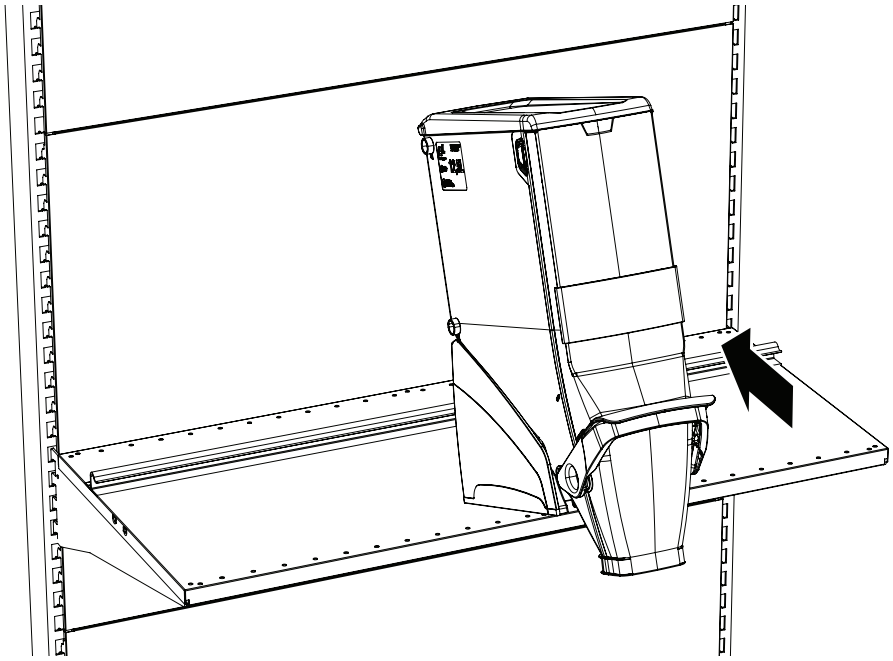

---

4 Make sure the Bin is securely fixed to the Foot

5 Insert the Bin Foot into the profile.

---

6 Repeat the same action until all Gravity Bins are in place.
