EC Compliance of the Product

Introduction and Warranty

We thank you for purchasing one of our products manufactured in compliance with the strictest standards and according to technical principles aiming at ensuring an easy and safe use in professional work environments.
The manufacturer guarantees its products for 12 months, in compliance with the legislation in force.
Consumables parts are not covered under the warranty.
All interventions under warranty will be carried out at Manufacturer's premises only.
Any transport and delivery costs will be at the Customer's charge.
In order to activate the warranty, the original purchasing invoice or any other mandatory document shall be produced.

Safety warning

Carefully read the warnings contained in this USE AND MAINTENANCE MANUAL, as they provide important information for safe installation, use and maintenance.
Keep this manual for future reference by the operators. The manual must be kept throughout the lifetime of the equipment and must be made available to users for any reference. It is necessary to read it for any information on the installation, operation and maintenance of the equipment.
After removing the packaging, make sure of the completeness of the equipment.
The packaging materials (plastic bags, polystyrene, cardboard, etc.) must be kept away from children, because they may be dangerous. Collect and select the materials according to the type of material (e.g. cardboard, wood, plastic materials, etc.) and dispose of them in compliance with the norms in force.
Do not use acid substances or aggressive chemical agent for the machine cleaning.

Environmental Notes

PACKAGING:	The packaging materials (plastic bags, polystyrene, cardboard, etc.) must be kept away from children, because they may be dangerous. Collect and sort the materials per type (e.g. cardboard, wood, plastic materials, etc.) and dispose of them in compliance with the regulation in force.
OUT OF SERVICE:	At the end of the equipment lifetime, disassemble and sort the components (metal frame, etc.) and dispose of them according to any local and national regulations.

Purpose of the Product

The Room service tables, this manual refers to, have been designed and manufactured in compliance with the applicable directives and technical regulations in order to improve food transport and distribution, abiding by hygiene and safety conditions.
The Manufacturer recommends not to use the Room service tables, if not equipped with braked castors, on a steep ground.

Technical features

- Stainless steel construction, brushed finish
- Black stained water-repellent MDF top with folding side leaves
- The top folds vertically to nest the tables together and save space
- Swivel castors, ø 9.5 cm, 2 with brake

Installation

The Room service tables, this manual refers to, are delivered in single packaging, disassembled.
After removing the packaging, make sure the equipment is intact.
Mount the trolley according to the scheme in “MOUNTING SCHEME”.

Instructions for user

Do not move the trolley on uneven floors to avoid damage.
Do not stop and leave the equipment on a slope.
If the equipment is fitted with braked castors, engage them when you reach the desired position.

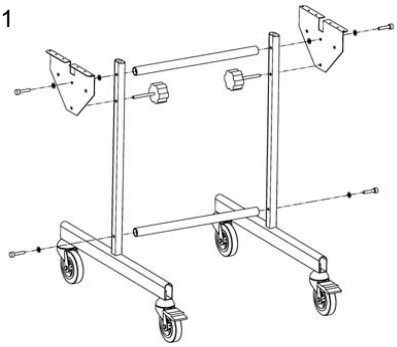

Maintenance and cleaning

CLEANING: Use a soft cloth and a neutral detergent. Never use products like chlorine, bleach, etc., that may corrode or damage the equipment.
Do not clean the surfaces using a steel scouring pad, a brush or a steel scraper.

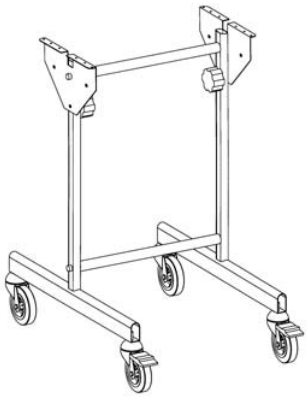

MAINTENANCE Before using the trolley, ensure that castors are not blocked by dust or dirt particles. If necessary, clean the castors thoroughly.
